

## Commercial Building Owners Resource List

Green Umbrella is working to create a more resilient, equitable, and thriving region. One of the ways we do this important work is through our buildings and energy program, the Cincinnati 2030 District, which helps commercial building owners find the right resources to ensure their buildings are high-performing.

Below you will find providers of essential building services that are partners of the Cincinnati 2030 District and members of Green Umbrella at the sustaining or leading level.

### Energy Consulting

Company	Website	Phone Number
