

# Automated Energy Benchmarking SERVICE

GRAND RAPIDS  
**2030**  
DISTRICT

This benchmarking service automates energy data uploads into your ENERGY STAR® Portfolio Manager® account! No ENERGY STAR® account? No problem. The GR2030 District will help you set one up.

[2030districts.org/grandrapids](https://2030districts.org/grandrapids)

## Benefits

### Automated Uploads

We work with the utilities to get your data.

### Compliance

Building owner members in the Grand Rapids 2030 District shall share their energy usage data with the district through ENERGY STAR® Portfolio Manager®. This service makes compliance quick and easy. Cannabis facilities can easily complete the data-sharing requirement within the Grand Rapids Licensing Ordinance.

### Assess Energy Usage and Carbon Footprint

Compare your building's energy usage to other buildings of similar use type, assess your Energy Use Intensity (EUI), and track your carbon footprint.

## Pricing\*

**500**

annually, for buildings under 20,000 square feet

**750**

annually, for buildings between 20,00 and 50,000 square feet

**1,000**

annually, for buildings over 20,000 square feet

*\*Discounts are available for more than 10 buildings.*
