

Sponsorship Opportunity

Join the movement.

Invest in a sustainable future for our region.

Who we are: Launched in January 2020, the Greater Victoria 2030 District is creating a hub of thriving high-performance buildings that are reducing their contributions to climate change and increasing their resilience. We unite the private and public sectors in catalyzing transformative change to achieve this goal.

Our 2030 District consists of 44 buildings and 4 million square feet of space, represented by 13 leading property managers in the region. We are part of a North America-wide 2030 District movement, now consisting of 24 Districts across North America.

How we do it: Through partnerships and strengthening relationships with property owners, local and provincial government, professional organizations and the private sector, the 2030 District works to accelerate a zero-carbon future to ensure healthy built environments and environmental resilience.

The 2030 Districts Network provides critical leadership and resources to reduce emissions in the entire built environment by 50-65% by 2030 and reach zero emissions by 2040.

Benefits of becoming a sponsor: Sponsors of the Greater Victoria 2030 District demonstrate their commitment to making our region a healthier and more resilient place to live, work, learn, and play. By becoming a sponsor, your organization will stand out as a leader in shaping a sustainable, economically competitive future for our region.

We invite your organization to join us in achieving this vision for Greater Victoria.
