

MAKE YOUR BUILDING ENERGY
DATA WORK FOR YOU

WEBINAR MAY 13TH

Open to members and non-members

GREATER VICTORIA
2030
DISTRICT®

Whether you are preparing to report under the CRD Benchmarking Program —or simply want to better understand your building's performance—this webinar is for you.

This session will explore the pathway from data reporting → real insight → taking practical opportunities with support at every step.

We know reporting requirements can feel complex and time-consuming. This session is designed to help make that process easier, more useful, and more actionable—whether you are reporting this year or not.

Details

Date: Wednesday, May 13th, 2026.

Time: 10 am - 11:30 am

Register online

<https://2030districts.org/greater-victoria/events/>

The event will feature:

- Guidance from CRD Benchmarking program regarding building energy reporting
- Reporting-to-Action (R2A) Pilot funded by BC Hydro for Cohort 1 buildings (recruiting 5-8 participants)
- Updates to the BC Building Electrification Roadmap (BERM) launched in April

About the District

The 2030 District helps property managers and building owners reach energy efficiency and greenhouse gas emission reduction goals. Our 2030 District is hosted by BOMA BC, with local building industry leaders uniting around a shared vision for sustainability and economic growth, and aligning with local government to achieve significant energy and emissions reductions.
